EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Guy Yale on 22 Jan. 2004.

The application has been amended as follows:

In the claims:

Claim 9, line 1, change "1" to -2--;

Claim 10, line 7 after "said key track" insert -fixture--;

Claims 14-21 are canceled.

2. The following is an examiner's statement of reasons for allowance:

The closest prior art (Janik US 6187188) discloses "key track fixture"-(lip 48 as shown fig. 5) in a filter system on a base module 14 having slots 60 which may be keyed to establish a unique slot pattern for accepting a

unique lug (52) pattern on a filter cartridge 12 – fig. 6-7 and col. 3, line 49+. Bailey (US 6187188) and WO 02/13944 have similar disclosures. The prior art fails to teach or suggest key track fixture with --a plurality of perforations at least partially defining ... a tab(s) – and the at least one tab is removable to define a configured entryway. The perforations 18 are shown in figures 6 and 10. The prior art slots are manufactured directly into the key track fixture without the use of perforations as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
